**MAINTENANCE TEAM**  
*The Ones Who Keep It All Running*

Our maintenance team does everything it takes to keep our facility safe, functional, and running smoothly — often behind the scenes.

From snow removal, mowing, tree trimming, and garbage service to repairs on walls, floors, ceilings, and equipment, they handle it all. They oversee boiler systems, HVAC maintenance, fire alarms, sprinkler systems, generators, oxygen supply, and safety inspections—plus routine testing of outlets, water temperatures, fire extinguishers, and bio-hazard systems.

They're also the go-to team for airport pickups, mail and bank runs, and the countless "everything in between" tasks that keep daily operations moving. If it breaks, needs testing, needs fixing, or just needs to get done — **they're on it.** Thank you to our Maintenance crew for keeping our campus safe, dependable, and ready every day.
